

August 16, 2020

Dear Parents/Guardian:

The New Jersey law governing immunization requirements states that all students born on or after January 1, 1997 and are enrolled in 6th grade, must receive a meningococcal vaccine and a Diphtheria, Pertussis, and Tetanus (Tdap) booster dose. Students enrolled in a comparable age level special education program will also have to meet 6th grade immunization requirements. These immunizations are required to enter school in September. Please send in documentation that your child is up to date on these vaccinations when s/he returns to school this fall.

If you have any questions, please reach out to the school or your child's primary care provider.

Sincerely,

State of New Jersey Health Department
