

August 16, 2020

Dear Parents/Guardians:

Please be advised that according to NJ statute N.J.A.C. 6A:16-2.2; all students enrolled in NJ schools must have a health screening which includes an annual assessment of height, weight, blood pressure, as well as vision, hearing, and scoliosis testing. Further, all children are to have a dental screening unless under the care of a dentist.

If for any reason, you prefer your child not to have a particular screening, please fill in the following form and return it to the school. Also, please note whether or not your child has seen a dentist in the last year, and if you'd like a nurse to do a brief screening. If you have any questions about the screenings, please don't hesitate to contact the school or your child's primary physician.

Yours Truly,

Marci Franciose  
School Nurse

---

**Please fill in and return:**

I consent to all annual health screenings for my child

Please exempt my child from the following screenings. My child is currently under the care of a primary health care giver (physician, nurse practitioner, etc.)

Height and Weight

Vision Screening

Scoliosis

Blood Pressure

Hearing Screening

My child has received a dental check-up within the past year

I would like my child to have a dental screening by the school nurse this year
